***Axxess Invests In Home Healthcare Industry Growth
As Platinum Sponsor of NAHC Annual Meeting***

*Axxess is committed to providing state-of-the-art software solutions
to empower better patient care*

DALLAS (Oct. 17, 2016) –Axxess, a fast-growing leader in home healthcare technology solutions improving patient care, continues to invest in expanding the industry as a proud Platinum Level sponsor of the upcoming [NAHC Annual Meeting, Conference and Exposition](#). The National Association for Home Care & Hospice (NAHC) event will be held October 23-25 at the Gaylord Palms Resort & Convention Center in Orlando, Florida. The conference attracts providers in home health, hospice, nursing homes, assisted living, and private duty settings.

NAHC represents 33,000 U.S. home care and hospice providers, along with the more than two million nurses, therapists and aides they employ. These professionals provide services to approximately 12 million patients who are aged, disabled or ill.

“Axxess is committed to leading healthcare industry growth and empowering providers to offer the best possible patient care,” said John Olajide, President and CEO of Axxess. “Our sponsorship of the NAHC conference demonstrates our support of the organization’s efforts to advocate on behalf of the home health industry, and represents our commitment to benefit providers with up-to-date insights and state-of-the-art resources to better serve patients and grow their businesses.”

The conference will include more than 80 educational sessions highlighting some of the industry's hottest topics, such as clinical and regulatory issues, and marketing and business development tips. Attendees will learn from other healthcare organizations how to lower costs and increase their ability to provide quality care. Axxess will provide demonstrations of its cloud-based software solutions at booth 807, with industry leaders and experts on hand to answer questions about issues facing the industry, such as changing regulations, streamlining the reimbursement process and how technology can improve agency performance.
