**Axxess Named 2017 Best Place to Work in IT by IDG's *Computerworld***

*Home Health Technology Leader Takes Top Spot For Second Consecutive Year*

DALLAS, June 12, 2017 -- [Axxess](#), the fastest growing home health technology company, has been named the [number one small place to work in IT](#) for the second year in a row by IDG's *Computerworld* 2017 Best Places to Work in IT.

Based on comprehensive questionnaires and in-depth employee surveys, Axxess took the top spot among 29 organizations with fewer than 1,000 employees. Organizations were ranked based on their ability to develop outstanding IT staffs while providing great benefits and compensation.

"It is gratifying to be recognized again as the best place to work in IT because we are intentional about creating an environment where people collaborate and innovate while doing meaningful work," said John Olajide, Axxess' president and chief executive officer. "While doubling our workforce over the past two years, we have consciously invested daily to maintain a rewarding experience for everyone in the Axxess family."

The Axxess culture – which was also recently honored by *Modern Healthcare* as a "Best Place to Work in Healthcare" – emphasizes excellence, innovation, transparency, diversity and inclusion in all company activities. This has led to multiple innovations that are firsts for the home health sector, including the first device-agnostic mobile app for clinicians, the first-ever [OASIS app feature](#) enabling patient assessments and documentation by clinicians anywhere, and most recently the pilot of [AxxessCARE](#), a completely new tool that connects home health agencies to qualified clinicians in real-time.

"As technology moves to the strategic center of every business, the ability of the enterprise to attract and retain skilled IT talent has become critically important," says Ken Mingis, executive editor of *Computerworld*. "The 100 organizations on our 2017 Best Places to Work in IT list keep their tech employees happy and engaged by offering generous salaries, top-notch benefits, continuous training, and access to cutting-edge technologies. In empowering their tech workforce, these firms gain competitive advantage, and we applaud them for their achievements."

###

## **About Axxess**

Axxess is the fastest growing home health technology company, improving care for more than 2 million patients in North America and trusted by more than 7,000 organizations growing their business. With an easy-to-use, complete suite of innovative cloud-based software and services for health records, scheduling, patient engagement, revenue cycle management and so much more Axxess empowers healthcare providers with solutions to focus on patient care. Fostering a collaborative culture to exceed client expectations, Axxess is recognized nationally as a “Best Place To Work,” while investing every day in growing the healthcare industry and communities around the country to address unmet needs and make lives better.

*Computerworld* from IDG is the leading technology media brand helping senior IT, business decision-makers and key influencers navigate change with effective business strategy. As the voice of business technology, *Computerworld* enables the IT value chain with unique editorial coverage from setting strategies to deriving value.

## **About the Best Places to Work in IT List**

The Best Places to Work in Information Technology (IT) list is an annual ranking of the top 100 work environments for technology professionals by IDG’s *Computerworld*. The list is compiled based on a comprehensive questionnaire regarding company offerings in categories such as benefits, career development, training and retention. In addition, *Computerworld* conducts extensive surveys of IT workers, and their responses factor heavily in determining the rankings.
