Axxess Strengthens Leadership Team with New Financial Expert

Spencer Marks to Lead Efforts in Revenue Cycle Management

DALLAS, June 8, 2018 – Axxess, the fastest-growing home healthcare technology company, has strengthened its senior leadership team with the hiring of financial expert Spencer Marks, who will oversee the company's efforts to grow revenue cycle management services for clients.

Marks spent the last 10 years managing the Dallas-area offices of a large-scale payment integrity firm. Prior to that, he worked as a revenue cycle management consultant to global financial powerhouses like Pricewaterhouse Coopers and Ernst & Young. Marks also has experience working in the financial operations of hospitals in North Texas.

"The shift to value-based care means every dollar counts in home healthcare," said Marks, Vice President at Axxess. "I am proud to work at a company like Axxess that recognizes this challenge and is developing forward-thinking solutions."

"Spencer brings a wealth of experience in the financial sector and Axxess will benefit from his knowledge," said John Olajide, founder and CEO of Axxess. "I am confident he will help us build on our strength in revenue cycle management."

Marks received a bachelor's degree in microbiology from Texas A&M University and a master's degree in hospital administration from Trinity University. In addition to his role at Axxess, Marks recently began serving as a member of the city council for the City of Gunter, Tex.
