**AGILE 2026 To Emphasize Practical Leadership Outcomes
as Expectations Rise for Care at Home Industry Events**

*Conference designed to support decision-making, execution,
and leadership effectiveness across care at home organizations*

DALLAS, April 20, 2026 – As leaders across care at home become more intentional about where they invest their time and resources, Axxess has designed the 2026 Axxess Growth, Innovation and Leadership Experience (AGILE) to center on practical outcomes leaders can apply within their organizations. AGILE, being held May 4-6, will help home health, hospice and home care professionals managing sustained pressure related to workforce stability, operational complexity and evolving regulatory expectations.

“Everyone expects professional gatherings to respect their time and reflect the realities they are managing every day,” said Molly Casey, Chief of Staff at Axxess. “AGILE is bringing together provider executives, industry experts and organizational leaders for focused time to work through real scenarios, engage with peers, and leave with clearer perspective on the decisions in front of them. The goal is to ensure leaders leave equipped to act, not just be informed.”

This year AGILE attendees will receive an Innovation Insights toolkit to support execution, giving leaders practical strategies they can put to work as soon as they return home. Each AGILE faculty member contributes a curated toolkit intended to extend learning beyond the conference and support informed, data-driven discussion in leadership and strategic meetings.

Sessions will emphasize discussion and application, creating space for leaders to examine challenges, test assumptions and sharpen leadership approach. The conference also features 30 continuing education credits through the American Nurses Credentialing Center, supporting sustained professional development through accredited education.

AGILE 2026 takes place May 4–6 at the Fairmont Hotel in Dallas and is open to professionals across home health, hospice and home care. Additional details and registration information are available at www.axxess.com/agile.
