» POINT OF CARE ACCESSIBILITY WITH 100% UPTIME

- Mobile offline capabilities
- Built-in Electronic Visit Verification (EVV)
- Point of care documentation
- Real-time access to client charts

Key Features to Maintain Compliance and Improve Patient Care:

» EMERGENCY PREPAREDNESS INFORMATION

- Ability to assign and update emergency triage level through the Information tab in the client chart
- Templates for special programs to enable agencies to create COVID-19 Emergency Preparedness Plans
- COVID-19 Teaching Guide templates provide education and best practices to caregivers and clients

Emergency Triage

☐ 1 - Life threatening (or potential) and requires ongoing medical treatment. When necessary, appropriate arrangements for evacuation to an acute care facility will be made.

☐ 2 - Not life threatening but would suffer severe adverse effects from interruption of services (i.e., daily insulin, IV medications, sterile wound care of a wound with a large amount of drainage.)

☒ 3 - Visits could be postponed 24-48 hours without adverse effects (i.e., new insulin dependent diabetic able to self inject, sterile wound care with a minimal amount to no drainage)

☐ 4 - Visits could be postponed 72-96 hours without adverse effects (i.e., post op with no open wound, anticipated discharge within the next 10-14 days, routine catheter changes)

Additional Emergency Preparedness Information

☐ Need assistance during an emergency.

☐ Contact made with local/state emergency preparedness officials regarding client in need of help during an evacuation.

☐ Medical Needs/Equipment (i.e. bedbound, oxygen, vent, IV cardiac meds other DME).

» INFECTIOUS DISEASE PROFILE AND SCREENING TOOLS

- Quickly view Infectious Disease Profiles for both clients and caregivers
- Easily assess infectious disease risks prior to providing care to vulnerable clients
- COVID-19 Screening tool follows health officials' recommendations to determine potential risk of infection

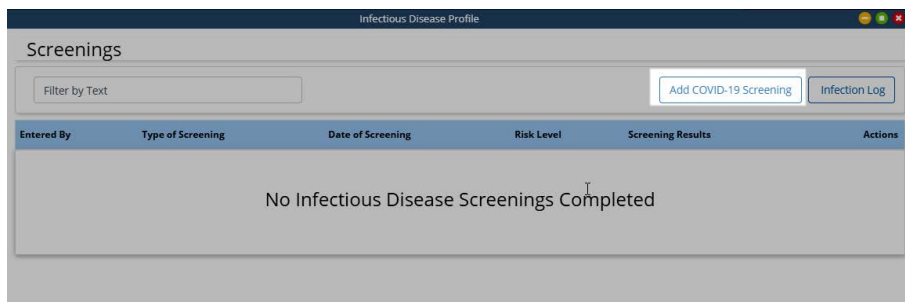

The screenshot shows the 'COVID-19 Screening' form. It includes instructions: 'Complete the following screening questions and select a risk level based on agency policies and procedures.' The questions are:

- Have you traveled internationally within the last 14 days to a country with sustained community transmission? (Yes/No buttons)
- Do you have signs or symptoms of a respiratory infection, such as a fever, cough or sore throat? (Yes/No buttons)
- In the last 14 days, have you had contact with someone diagnosed with COVID-19, under investigation for COVID-19, or with a respiratory illness? (Yes/No buttons)
- Do you live in an area where community-based spread of COVID-19 is occurring? (Yes/No buttons)

Below the questions is a 'Risk Level' section with 'High' and 'Low' buttons. At the bottom, there are fields for 'Date' (03/27/2020) and 'Time' (11:39 AM), and buttons for 'Save & Close', 'Save & Add Another', and 'Cancel'.

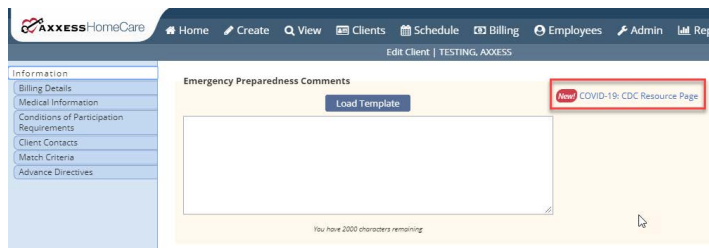

The screenshot shows the 'Client Center' for 'ADAMS, MARCIE'. The client is a female, age 30, with MRN: 00003. The profile includes fields for DOB (03/12/1990), SOC (05/16/2017), and Phone (123 123-1231). A 'Quick Reports' sidebar on the right lists various reports, with 'Infectious Disease Profile' highlighted in red. Other reports include Client Profile, Medication Profile, Immunization Profile, Allergy Profile, Authorizations Listing, and Communication Notes.

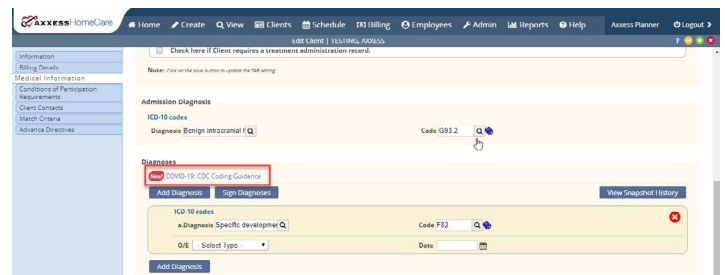

The screenshot shows the 'Infectious Disease Profile' table. The table has columns: Entered By, Type of Screening, Date of Screening, Risk Level, Screening Results, and Actions. The message 'No Infectious Disease Screenings Completed' is displayed in the center of the table.

» GUIDANCE IN THE CLIENT PROFILE

- Links are integrated throughout the client chart to provide guidance on diagnosis coding and emergency preparedness planning from the CDC

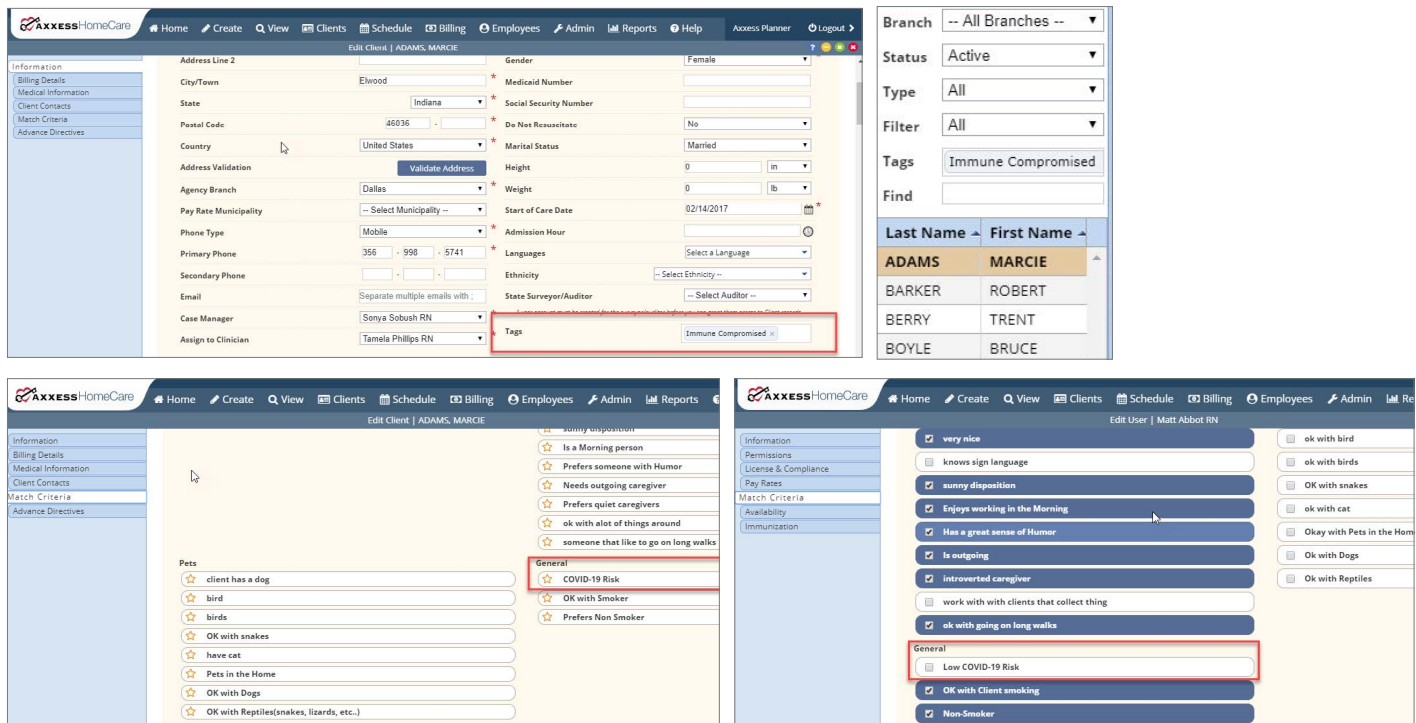

The screenshot shows the 'Emergency Preparedness Comments' section. It includes a 'Load Template' button and a text area for comments. A red box highlights a link labeled 'New COVID-19: CDC Resource Page'.

The screenshot shows the 'Admission Diagnosis' section. It includes a 'Check here if Client requires a treatment administration record' checkbox. Below, there are fields for 'ICD-10 codes' and 'Diagnosis Benign Intoxication'. A red box highlights a link labeled 'COVID-19: CDC Coding Guidance'.

» CLIENT MATCHING AND SCHEDULING
