Axxess Partners with Gateway to Promote Coding and OASIS Review Services

Axxess To Make Gateway Services Available for More Than 2,000 Clients

DALLAS, Tex., and DETROIT, Mich., February 6, 2019 – Home healthcare technology leader Axxess is offering its clients even more robust coding and OASIS documentation solutions through a new partnership with Gateway Home Health Coding and Consulting, LLC.

Axxess, the fastest-growing home healthcare technology company, will work with Gateway, a leader in coding and OASIS documentation services for home health and hospice organizations, to provide Axxess clients solutions that enhance and complement Axxess' easy-to-use suite of offerings helping organizations manage and grow their business. Axxess eventually will provide a dedicated location through the Quality Assurance section of its software to enable easy access for Gateway representatives to assist Axxess clients with needed coding, and the entire OASIS documentation and review process.

"Gateway's coding and documentation analysis capabilities perfectly complement Axxess' current products and built-in documentation scrubbing solution, and will provide Axxess clients even greater visibility into their daily operations and confidence in their reporting," said John Olajide, Axxess founder and chief executive officer. "Gateway has helped organizations throughout the country more effectively manage their business, and we look forward to this partnership giving our clients exposure to their capabilities."

Added Rob Drew, Gateway President and CEO: "John and his team have created next generation solutions to help agencies grow their business. We're confident we can provide added value to Axxess clients that will help them remain compliant and get faster reimbursements. We look forward to working with Axxess to make sure as many agencies as possible can use the Gateway services to improve patient care and grow their business."

Gateway's wide-ranging experience in the home health and hospice industry enables it to provide coding that earns the industry's highest accuracy rating at the most affordable cost. In addition to their coding expertise, Gateway team members leverage their knowledge of Medicare, Medicaid and other payors' regulations to assist with ADR, ZPIC and RAC reviews and appeals. Their extensive experience with administrative law judges across the country combined with their hands-on knowledge of home health rules and regulations leads to unparalleled representation and outcomes.

About Gateway Home Health Coding & Consulting, LLC

Gateway is an industry leader in coding and compliance. Our services directly affect a home health or hospice provider's ability to accurately depict a patient's current health status while under service, and maximize revenue and efficiency. Our mission is to provide better, faster and affordable coding services – all in an effort to improve agencies' operations and bottom line. Gateway services easily integrate into an agency's day-to-day process, regardless of census size. Gateway focuses on quality by employing a team of Certified ICD-10 and OASIS/HIS specialists, each with a primary education within healthcare. Gateway continuously develops programs to benefit post-acute care providers by aligning with other vendors that share our vision for better standards of care, such as Axxess, Maxwell Healthcare Associates, Excel Health and many more.
