Axxess Named Among the Insider Pro and Computerworld 2020 Best Places to Work in IT

Healthcare Technology Leader Honored For Sixth Straight Year

DALLAS, June 23, 2020 – Home healthcare technology innovator Axxess has once again been honored as one of the Insider Pro and Computerworld 2020 Best Places to Work in IT. This is the sixth consecutive year Axxess has been ranked among the 100 finalists.

Based on comprehensive questionnaires and in-depth employee surveys, Axxess was among the leaders in the category for organizations with fewer than 1,000 employees. Organizations were ranked based on their ability to develop outstanding IT staff while providing great benefits and compensation.

“Axxess is constantly committed to a culture of excellence through diversity, equity and inclusion,” said Axxess founder and Chief Executive Officer John Olajide. “I am honored by this award and proud of the phenomenal team we have working together to deliver such a delightful experience for our clients.”

The Axxess culture emphasizes excellence, innovation, transparency, diversity, equity and inclusion in all company activities. This has led to multiple innovations that are firsts for healthcare at home, including new features to assist enterprise organizations with their response to the [coronavirus \(COVID-19\)](#) pandemic, the first device-agnostic mobile app for clinicians to ensure compliant documentation at the point-of-care, and [Axxess CARE](#), a trusted platform that connects home health organizations to a network of qualified clinicians to provide timely care.

The culture of innovation at Axxess is why the company’s easy-to-use software solutions have helped streamline the operations of more than 7,000 organizations. Axxess serves more Medicare-certified organizations with technology that enables business growth while also decreasing costs. Using mobile-friendly, cloud-based software, the staff of any healthcare-at-home organization can spend more time caring for patients to improve outcomes.

“As technology continues to evolve more rapidly than ever, attracting and retaining top IT talent to research, deploy and maintain that technology has never been more important or more challenging,” said Mark Lewis, Vice President, Audience Development at IDG’s Insider Pro. “Companies that have earned a spot on the Insider Pro and Computerworld 2020 Best Place to Work in IT list share a common denominator: They create an environment that not only rewards

workers with competitive compensation and benefits, but they also foster a spirit of diversity, social responsibility, training and innovation.”

###
